

# Doro 8035

## THE SMARTPHONE THAT CONNECTS GENERATIONS

The versatile Doro 8035 offers a great experience for both Android users and first-time smartphone owners. Unlike other smartphones, it allows you to choose between a traditional Android interface and Doro's highly intuitive, action-based interface that makes navigating brilliantly simple. It also keeps track of the actions you use most often. And no matter which mode you prefer, you'll find great features such as the Doro "I want to" button, a built-in assistance button, three physical buttons and much more.

- Step by step startup guide
- Get support from a distance
- Assistance button
